SOLDAMATIC®

AUGMENTED TRAINING FOR WELDING

Soldamatic Augmented Reality Welder Training

**Talk and Demonstration by Matthew Hunt
(Regional Manager - Seabery Augmented Technology)**

on Wednesday 14 Jun 2023 at 7:00 PM

A practical 'hands on' session on the benefits and advantages of the Soldamatic AR Welding Training solutions. Participants will be able to see and experience the new 2023 release and how it impacts on the learning experience including practical usage, the curriculum, assessment and the tracking of skills in all the major welding processes including, MIG, TIG, FCAW and Manual Metal Arc.

Matthew is former educator and adviser, with over 20years experience in delivering education technology solutions to a worldwide audience. He recognises the effectiveness of good solutions on our young people and their tutors. Having joined Seabery in 2022, he has become convinced 'Augmented Reality' is the perfect technology for the effective delivery of practical, vocational skills in a digital format.
